Seix Investment Advisors LLC Launches Income Opportunities Strategy

PARK RIDGE, N.J. (May 26, 2016)—Seix Investment Advisors LLC announces the launch of a new product, the Income Opportunities Strategy (IOS). This is the latest offering in a wide range of specialized investment solutions that provide institutions and investors access to Seix’s extensive capabilities.

The Income Opportunities Strategy draws on Seix’s experience managing both traditional and opportunistic credit portfolios. Seix employs in-depth, fundamental research to identify opportunities to potentially capitalize on market anomalies through portfolio customization and avoidance of certain sectors of the market. The firm’s Leveraged Finance team is composed of industry specialists with an average of 23 years of experience.

“Historically, when high yield spreads have crossed 700 basis points, it has been a compelling time to invest,” says George Goudelias, Managing Director and Head of Leveraged Finance at Seix. He continues, “Our analyst-driven process lends itself to streamlined decision making and timely identification of fundamental changes and potential market opportunities.”

“IOS is designed for investors who would like to engage themselves back into the credit markets, but would like a more conservative focus, with the ability to avoid certain sectors pending market conditions,” adds Mike Kirkpatrick, Managing Director and Senior Portfolio Manager at Seix. “We believe the technicals of the market, coupled with Seix’s long track record and experienced team may enable investors to capitalize on these unique market conditions.”
